**ORIGINAL GENUINE**  
Instantaneous Lunch.  
Invigorating.  
**The Food-Drink for All Ages—Highly Nutritious and Convenient**  
Rich milk, with malted grain extract, in powder form—dissolves in water—more healthful than tea or coffee. Used in training athletes. The best diet for Infants, Growing Children, Invalids, and the Aged. It agrees with the weakest digestion.  
Ask for "HORLICK'S"—All Chemists, Hotels, Cafés and Stores.  
Don't travel without it. Also keep it at home. A lunch in a minute. In Lunch Tablet form, also, ready to eat. Convenient—nutritious.

### SURPRISING IGNORANCE.

Little "Rastus" came home from school one day and asked:  
"I say, paw, why does yer alius put D.C. after Washington?"  
"Why, chile," replied the old colored man, "I's surprised at yer ignorance. Doan' yer know dat D. C. means dat Washington was de daddy ob his country?"—Lippincott's Magazine.

### FIRM IN THE FAITH.

Even the best of us have a streak of prejudice in our composition. Aunt Sally was no exception. She never failed in her attendance at church—her church—sunshine or shower, and knew no other faith than that promulgated by the Methodists.  
On one occasion her pastor was suddenly taken ill, and no services were held. Deeply disappointed, she started homeward, and on her way had to pass the Episcopal Church. The thought seized her to stop here for Sunday services. She got as far as the door, then prejudice conquered.  
"No, I jes' won't encourage 'em," she said resolutely, and, turning about, went home.—Harper's Monthly.

Teacher of Hygiene—"Why must we always be careful to keep our homes clean and neat?"

Little Girl—"Because company may walk in at any moment."—Judge.

Dr. Hale declared once that he had had a special revelation. He was down in Maine with an agreeable company of fishermen, and he must needs leave the trout-brook in order to get to Boston in time to prepare his sermon. As he thought of the old trout-rod and the new sermon, the "revelation" suddenly came to him something like this: "It is far better to preach a good old sermon than a poor new one." Edward Everett Hale, stay where you are, and go a-fishing!—Christian Register.

The cynical person was standing in front of a part of an exhibition of local art talent labelled "Art Objects."

"Well, I suppose Art does object, and I can't blame her, but there doesn't seem to be any help for it," he finally said.—Chicago Inter-Ocean.

## THE BIGGEST DANCE OF THE SEASON COMES UP TO HIGHEST EXPECTATIONS

Committee Makes Up for Loss of Union Dance by Enthusiasm For the Alma Mater—Two Hundred and Seventy-Five Were Present at Dance of Last Night

### FLOOR FINE, MUSIC GOOD AND REFRESHMENTS OF BEST

Dances Range From Come Fill Up Your Glasses, Dreaming and the Count of Luxembourg, to International Rag and Too Much Mustard, and Some Smoke—Twenty Numbers—Supper Well Served—All Arrangements good

The upstairs hall at the Union was last night the scene of the most successful dance of the season. About two hundred and seventy-five were present to enjoy the fine floor, the good music and the recherche refreshments. These three important items have always been synonymous with the Alma Mater dance in the past, and last night was no exception to the rule.  
The "hop," which the Students' Council held annually was looked forward to this year more than ever, owing to the unfortunate circumstances which had necessitated the postponement of the Union dance early in the season, and the committee spared no effort to make up for that loss.  
The hall was just comfortably filled, and there was plenty of room for going through the more or less complicated steps of the fancy dances, without interfering in the least with those desiring to follow the slower and more conservative ones. Brown's well balanced orchestra pleased the dancers by their renderings of classical and popular tunes. Even the tiredest of the tired could not fail to step to the music, so persistent were its strains.

Cut flowers and palms were tastefully distributed in the upper rooms and down the stairways, affording many nice nooks for tete-a-tetes between wearied dancers. A unique feature of the decorations were the letterings, "McGill Alma Mater Dance," in bunting, at the end of the hall, and the festooned crests along each side. The billiard room served as a ladies' cloakroom.

As in previous functions this year, supper was served simultaneously in the dining and grill rooms. By the adoption of this method it was possible to serve all the guests at the same seating, thus doing away with all the inconvenience which two suppers is bound to cause.

The following were the committee in charge: S. G. Dixon, L. H. Roberts, W. P. Hughes, H. A. Melville, E. C. Lee, C. S. McKenzie, J. S. Hall, W. H. Howard, A. B. Wilkes, L. F. Pyles, H. C. Beatty.

Mrs. Peterson, Mrs. Moyle, Mrs. Adams, Miss Hurlburt, Lady Davidson, Mrs. R. A. E. Greenshields, Mrs.

McDonald, and Mrs. Geddes acted as chaperones.

The present included: The Misses M. Fowles, A. Waters, D. Donogh, H. Lauder, M. Heneker, Gamble, C. Russell, De Muth, L. Russell, P. Shannon, E. Nicholson, V. E. McEwen, E. Eveleigh, Jean Ritchie, Pottingham, C. Taylor, K. Sander, M. Johnson, K. Gordon, E. Cushing, I. Millen, A. Pelletier, Scott, H. MacPherson, A. E. Findlay, C. Morgan, G. Rogers, G. Smith, H. Griffin, Robert, Wolcott, E. Russell, I. Thoburn, D. Lachance, N. Lachance, J. Currie, Parker, N. Morgan, D. Nicholson, L. Armstrong, L. Quinlan, Curry, H. Fraser, E. Fraser, I. Wakefield, J. Parkins, M. Morgan, Mathewson, G. Halkwill, Rochester, A. Stanger, Roche, I. M. Abbott, Cornell, Howard, C. J. Dean, Brown, D. Slack, H. Cornell, H. Hutchison, B. K. Douglas, M. Morrison, L. Tull, A. McLean, M. Smith, E. Findlay, E. Brigham, Scott, Babbet, G. Williams, Scott, Dingwall, Hutchison, Lately, M. Goodchild, Woodley, D. Garth, MacKenzie, B. Bixey, Stewart, M. E. Hay, S. Strath, G. Southes, Gilman, L. E. Rochester, M. Bradford, Crawford, Lorry, M. W. Sawyer, Clark, P. Bryson, L. A. Woods, J. Macdonald, Reynolds, P. MacSween, A. Younger, M. Younger, M. W. W. Sutherland, M. J. Brook, Carson, Galbraith, Chapman, Babcock, Lawrence, P. Coles, Gregg, Wyatt, Wilson, Graham, Walters, McCullough, Webb, Cooley.

Messrs. A. L. Lockyer, E. E. Garrow, J. E. McGill, W. R. Sandison, P. B. Buckley, R. B. Coulson, P. L. Patterson, L. C. Reid, P. J. Rounthwaite, R. G. Henderson, K. P. Ewart, G. J. Staples, C. S. Montgomery, R. S. MacRae, J. Fritheringham, A. N. Jenks, R. W. McLean, B. A. Fraser, R. Sargent, E. A. Cushing, R. Cleveland, A. Pelletier, J. B. L. Heney, P. E. Gordon, E. McEwen, Ross Taylor, H. D. Grant, A. L. Cunningham, A. E. Lundon, C. O. Fricker, D. Macaulay, L. Powter, W. Ross, E. Patterson, H. P. Stanley, L. B. Rochester, P. J. Morris, R. A. Scantlebury, D. P. McRae, J. A. Truquhart, Melville, Macdonald, E. B. Taylor, G. Williams, C. O. Donald, P. S. Fisher, J. L. Sanders, R. P. Armstrong, L. E. Lauder, W. Wall, G. L. Stewart, R.

L. Gale, E. Fawcener, W. R. Jeffrey, G. Rochester, S. F. Mooney, J. Wickson, R. E. Fisher, A. Favier, J. Lake, J. McDonald, Pickard, Cambridge, A. J. Scott, H. B. Chown, R. Bradford, J. Wathen, J. McKeown, G. W. Shipman, C. S. Douglas, A. A. McGarry, M. Johnston, W. G. Snetsinger, D. J. Shrimpton, R. F. Angus, J. W. Munion, N. L. Morgan, N. Forbes, I. Hall, T. Lennie, W. J. Garrow, H. Morse, D. R. Learold, G. G. Evans, H. Morgan, W. Watson, Buster Reid, E. G. Stauders, J. B. Macphail, V. Dulos, L. C. Montgomery, G. Upham, G. L. Gall, C. B. Findlay, H. S. Fry, Red McLean, C. H. Balm, McPayden, E. A. Lockhart, E. B. McIntosh, S. L. Scott, D. H. Ross, M. Robertson, G. S. McLennan, A. G. Dewey, C. H. Harding, T. H. Henry, J. P. Hassard, R. C. Hastings, A. H. Stalker, H. D. Wayne, E. Elliott, O. Barwick, C. S. Lemesurier, H. S. Pedley, L. McLean, G. Skelton, E. W. Baudon, W. B. Cameron, P. B. Baily, Dr. Cumming, Dr. Stuart, Ramsey, Dr. Cumming, D. Sullivan, H. H. MacKenzie, H. S. Cheesborough, H. Norris, L. G. Kennedy, L. Richards, G. Badgley, Billington.

The programme consisted of twenty dances, as follows:

- Extra—"Come fill your Glasses."  
1—Waltz . . . . . Valse Septembre  
2—Two-Step . . . . . Get out and Get Under  
3—Waltz . . . . . Sympathy  
4—Two-Step . . . . . International Rag  
5—Waltz . . . . . Marriage Market  
6—Two-Step . . . . .  
Your a great big blue eyed baby.  
7—Waltz . . . . . Venus Waltz  
8—Two-Step . . . . . Some Smoke.

### SUPER EXTRAS.

- 1—Waltz . . . . . Bacarolle.

13—Two-Step . . . . . On the Ocean  
14—Waltz . . . . . The Girl on the Film  
15—Two-Step . . . . . Too much Mustard  
16—Waltz . . . . . Dreaming

## MARITIMERS ARE TO DINE

At St. Lawrence Hall

## DR. W. W. CHIPMAN

Will be Guest of Honour—  
Open to Graduates

## ARTS 1914 WILL DINE

During Graduation Week—  
Committee Elected

The McGill Maritime Club propose holding their annual dinner at the St. Lawrence Hall on Friday evening, March 13th. The Maritime Club is composed of students and professors from the Eastern provinces who happen to be in attendance at McGill. These include representatives from New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland.

The Executive has been fortunate enough to secure Dr. W. W. Chipman, an ex-Honorary President of the Society, as guest of honour on the occasion of the approaching banquet. Several other prominent business men of Montreal have signified their willingness to be present.

Last year there was a very large attendance at the banquet. This year, owing to the fact that the Executive has decided to open the dinner to Maritimers who are graduates of McGill, and on account of business attachment, resident in Montreal, there promises to be an even larger attendance. Reports of disposal of tickets on first day of sale are very encouraging.

Any graduate who desires a ticket for this dinner is requested to apply to D. O. Kliney, at Strathcona Hall.

### OR THE TOES.

Occasionally a man's sins find him out—at the elbows.—Judge.

Madge—Charlie whistled that new tune last night. Do you remember how it goes?  
Majorie—No; but I can dance it.

"My proposal had a bad effect on Winifred."  
"Did it?"  
"Yes, it sent her into a decline."

"What are your sons doing at present?"  
"One of 'em's up to New York practising law and the others' right here at home makin' a livin'."

An English medical man has announced that ants are germ-carriers and dangerous to humanity.

Just try to imagine the wild hilarity of the sluggards and the grasshoppers who have so long had this model insect held up as an example for them!

Jane and John were auto-riding, and Jane asked to run the car. Her gallant reluctantly acquiesced, and his fears soon materialized, for this is what she said:  
"Oh, Johnny, take it quick! Here comes a ditch!"

### LOSS OF ENERGY.

To the engineer the smoke rolling and billowing out of the power-house chimney is just like so many dollars taking wings. For the company's strong-belt. The smoke escaping from a steam plant is composed of nearly 60 per cent. of the heat energy of the coal which is being burned. This energy is lost in the tiny particles of coal and carbon which escape up the chimney, in the various gases which are freed before they are burned, in the heated air, and in various other ways. So, for every \$10 spent for coal \$5.45 is lost up the chimney. Assuming that the energy of coal is 100 per cent., only 2 per cent. of this is available in the form of light when you snap on the electric lamp. Nearly 98 per cent. of the original coal energy is lost in transmitting this energy into heat, from heat to steam, from steam to electricity, and in transmitting the electricity to your home. The efficiency of the electric lamp is only 5 per cent.—in other words, the lamp turns into light 5 per cent. of the energy it receives and wastes 95 per cent. of it in useless heat.

A minister was once preaching at a little chapel on the subject of "Living." During the sermon his heart was rejoiced by the fact that a member of the congregation went to the side of the chapel and placed a coin in a box, and a little later another did the same. Surely, the minister thought, my sermons have never met with so practical a response before. On leaving he was accosted by one of the brethren, who said: "I hope we didn't disturb you, sir; but ours is a penny-in-the-slot meter, and we should have been in darkness if we hadn't attended to it."

## ORCHESTRA AT CONCERT

In Fairmount Church

## SPECIALTIES

Several Other Features—Selections From Habitant Poems

The Undergraduate Orchestra assisted in a concert given at Fairmount Church last night. To the delight of several hundreds of people they played some of their specialties, and managed to put over a few stunts on the side. Especially strong on this latter feature were Dean Robinson and Art Gaffney.

The Orchestra rendered Lutzpelt with a rare zest, not to speak of the excellent rendering of the "Pierfly," which proved especially popular with the audience. Each number was encored. To meet the persistent demands of the audience for more, the Orchestra played Sousa's Washington Post and King Cotton, as well as You Made Me Love You.

Several other features of the evening's entertainment are deserving of more than mere passing mention. Mr. W. W. McCullagh, who may almost be termed the successor of Drumm, as an interpreter of the manners and customs of the French Canadian, favoured those present with several delightful songs of his own composition. He has also earned a reputation for himself as a veritable "P. P. Pollit," an alto soloist, attracted considerable attention on account of his unusual voice.

After the concert, members of the Orchestra were treated to refreshments by the ladies of the congregation.

### ALCOHOL.

Alcohol is like a snake.  
It can't be kept in bounds;  
It makes of one a perfect wreck,  
A wandering vagrant bound.

It steals away an active brain,  
And fills one with remorse,  
And causes people to go insane,  
Their soul is all morose.

In dread of those who stand in awe,  
Who tattle at the wine,  
They all disgrace the moral laws—  
Their manner are unkind.

All sons and daughters should abhor  
The actions of such loafs.  
For this is what they make themselves  
When whisky's up their snouts.

Of all the curses on the earth,  
This certainly is the worst;  
It brings to sadness and to gloom,  
Our pleasures and our mirth.

And he who drinks the fiery cup  
Will come to saddest woes,  
For, as he takes each dainty sup,  
'Twill blossom on his nose.  
S. M. G., Arts '17.

### THE PRELIMINARY.

"What is the best thing any one can get for his dinner?"  
"Hungry"—Indianapolis Star.

### REVISED VERSION.

Be sure you are wrong, retain the best legal talent available, then go ahead.—Contact (Nev.) Miner.

### HELPING HIM.

"Does your father object to kissing?"  
"I don't know. Shall I tell him that you would like to kiss him?"—Houston Post.

### MERELY TANGOING.

Crawford—"What's the matter with that fellow who is holding onto the lamp-post and shuffling his feet?"  
Crabshaw—"There was a time when I'd have said he was drunk, but now perhaps he's practising a new dance."—Judge.

### RIDDLES AND ANSWERS.

Why is the memory of George Washington like fine old French brandy?  
Because it is very dear to the American people.  
What is the nearest tie on earth to man?  
His neck-tie.  
What kind of hair did Moses's dog have?  
Dog's hair.  
Why shouldn't a young man kiss his sweetheart while in a hammock?  
They would be apt to fall out.  
How can you have a new set of teeth inserted free of charge?  
Go into some one's back yard where they have a big dog and kick him.  
Why is a bashful young man like a muff?  
He holds a young lady's hand without squeezing it.  
What gives more milk than a cow?  
A milk wagon.  
Why is George Washington like "America"?  
Because he is the national him (hymn).  
What did Jack Frost say when he proposed to the violet?  
Wilt thou? And it wilted.  
When is a clock cruel?  
When it strikes its little one.  
"What a debt we owe to medical science!" he said as he put down the paper.  
"Good heavens!" she exclaimed. "Haven't you paid the doctor's bill yet?"

## R.M.C. ARE CHAMPIONS

Though Defeated by Varsity They Win on the Round

Kingston, Ont., March 5.—Varsity night when they defeated the R. M. C. team in a fast exhibition by 4 goals to 2. R. M. C., however, are champions of the Intermediate Intercollegiate series, having beaten Varsity in Toronto by six goals to two. This is R. M. C.'s third year in succession to win the honor. It was a fast game, but combination was sadly lacking on both teams, individual rushes being the cause of the scoring on both sides. Matthews, the big cadet defence man, played the star game for R. M. C., scoring both goals for them, while Wilson at rover was Varsity's shining light. At half time the score was two all.

The teams were:  
Varsity (4) Position. R. M. C. (2)  
Armstrong.....goal.....Evelyn  
Pierce.....left defence.....Barvis  
McDowall.....right defence.....Matthews  
Wilson.....rover.....MacAulay  
Howie.....centre.....Cochrane  
Cotton.....left wing.....Brownfield  
Guilford.....right wing.....Stewart  
Referee, "Bouncer" Brown.

Excusers are accusers; explainers, complainers.

**THE ROYAL MILITARY COLLEGE OF CANADA**  
THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.  
The College is a government institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact, it corresponds to West Point and Sandhurst.  
The Commandant and military instructors are all officers on the active list of the Imperial Army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical instruction is also given.  
Whilst the College is organized on a strictly military basis the cadets receive a practical and scientific training in subjects essential to a sound modern education.  
The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.  
The strict discipline maintained at the College is one of the most valuable features of the course, and, in addition, the constant practice of gymnastics drills and outdoor exercises of all kinds, ensures health and excellent physical condition.  
Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.  
The diploma of graduation is considered by the Regulations of the Law Society of Ontario, and is equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it obtains the same exemptions as a B.A. degree.  
The length of the course is three years, in three terms of 34 months each.  
The total cost of the course, including board, uniform, and instructional material, and all extras, is about \$800.  
The annual competitive examination for admission to the College takes place in May of each year at the headquarters of the several military districts.  
For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Military Council, Ottawa, Ont., or to the Commandant, Royal Military College, Kingston, Ont.

**AN OLD ENGINEER'S ADVICE.**  
(BY FRANK M. O'BRIEN.)  
Be sure your thermal units are alright in tune; it's  
An awful thing to hear a cross-head slide;  
And those nifty Sheedy burners are most difficult for learners  
If the laces on your brake-shoes aren't tied.  
Keep your radial stays well laced up, and your boiler-angle braced up.  
So you'll never lack for superheated steam.  
If your steam-pipe studs are missing, you'll wear the vapor hissing.  
Just button them along the fire-box seam.  
Never trust a pitted boiler; it makes of you a brawler.  
And the Hancock inspirator won't inspire;  
Take the old concentric nozzle, turn her on and let her sizzle;  
Then use the rocking-grates to dump your fire.  
If you hear a hectic chirrup, don't try any soothing sirup.  
For the cough of the exhaust cannot be cured;  
Nor can knuckle joints rheumatic be made good by moments static.  
Let colds upon the steam-chest be endured.  
Never work your whistle lever when you see a purple beaver.  
A-playing in the moonlight on the rails;  
But if elephant or hippo, then cut loose and leather rippo.  
And show them that they must not block the mails.  
Always use the bumper-limber when the rocker-shaft is limber.  
And the counter balance-spring is out of gear.  
Tap the boiler barrel often; let the Babbitt metal soften.  
And stand the faithful guide-yoke on its ear.  
Gently oil the dear old buffer, lest they think you are a duffer.  
Don't scratch yourself upon the centre-pin.  
You will find the best jaw-binders are for mugs, not stem-winders.  
And the coal is in the tender, not the bin.  
And if you absorb this knowledge, you needn't go to college.  
You can wreck a train without an item more;  
And should the cops make bother, just blame it on your father.  
And say he cracked his pan in '81.

**SIR WILLIAM RAMSAY ON JOHNSTON'S ENTOMOLOGY.**  
Sir William Ramsay's accusation against Dr. Johnston, made at the meeting of the Simplified Living Society, that his ignorance of entomology led him to absurdities of spelling, was admitted even by Dr. Johnston. His methods in tracing entomology were of the simplest. "This is a great work, sir," said Dr. Adams to him. "How are you to get all the entomologies?" "Why, sir," replied Johnston, "there is a shelf with Junius and Skinner and others, and there is a Welsh gentleman who has published a collection of Welsh proverbs who will help me with the Welsh." "A thing was done," says the London Daily Chronicle, with little assistance from the learned, as the dictionary maker himself complained. That little came from a man who sent him a list of 30 derivations.  
Even in definitions, however, as we all know, the doctor sometimes tripped and remained on the ground. Thus he never altered his definition of "leeward" and "windward," which to him meant precisely the same thing, although he did consent to put right the word "pastern," the occasion of his bold reply to the critical lady who invited him to explain how he could have thought it to be the knee of a horse. "Ignorance, madam, pure ignorance," for such lapses the doctor made ample atonement in his definitions of "oats" and "patriotism." If he had done no more than describe the man who lived in Crab street as a "text-copier, a harmless drudge," he would have earned our gratitude and forgiveness.

**W. J. Pearse, One of the McGill Rhodes Scholars Now at Oxford**  
With Pearse going into Football, and W. E. G. Murray into Tracks, at the great English University, McGill is well represented over there.

# The DAILY SECOND PAGE

## W. J. Pearse, One of the McGill Rhodes Scholars Now at Oxford

W. J. Pearse, one of our Rhodes Scholars at Oxford, is making good. We don't know how he is getting along in his classes, but cabled from England that he is getting along in his classes, but cabled information from England is to the effect that he is on the Oxford football team.

He used to play English Rugby here too, and out West had a great reputation in his school team. Here is what the defunct McGill Martlet said about him in its "Little Tin Gods" series:

Like most other people who were born in 1890, our hero is already 20 years of age—which proves that Kamloops, B.C., is not really the slowest town on earth. In fact, Billie—so called because his name is Walter—found the place so much to his liking that he gave it his almost exclusive patronage until the limitations of the local tuck-shop inspired him to migrate westwards to Victoria University School.

Of the triumphs subsequently endured by our latest delfy, it were futile to attempt a description after the terrible and wonderful account which the Star dispensed to the reading public (at one cent per, with two tragedies and the twenty-seven original jokes thrown in) in its edition of the 10th of last month.

So it is no use repeating the stories of the hit he made as three quarter (or was it one and five eighths), on the school football team—from the shock of which Vancouver Island is said to be still oscillating; or of his revolutionary influence on the sporting traditions of cricket; or even merely to say that he "also ran" on the track team. The advertising manager has threatened to resign if we go into details regarding Billie's scholastic successes, so we will ignore examinations—of which he has been known to take a few in the rare intervals between meetings at which he had to take the chair. Incidentally, we imagine that with the number of chairs he has taken in the past three years, he could run a very presentable second-hand store. Besides being President of the Third Year, he is Vice-President of the Arts Undergraduates' Society, and spent last year mainly in the chair of Arts Sophomores' meetings. His connection with the Literary Society was short but distinguished; and it was particularly appropriate that his maiden speech should have been in support of woman suffrage.

And of what use to relate the homeric and protracted struggle which preceded his capture (and escape) of the Intercollegiate Doubles Tennis Championship? Of what use I say? It couldn't be done in a fraction under penmanship, and, besides, all the world knows these things—except the negligible fraction with souls so dead that they do not read the Star.

No; let us rather attack the problem from another aspect. How many of our readers realize that Billie has also a human side? How many, for instance, are aware that he takes tea with his sugar? or that he drinks only Bovril after winning Tennis Championships? How many have been so fortunate as to witness the sunny smile with which he ever greets the mention of Quebec? But of course, we mustn't tell you that story. How many men know that he was born with a silver spoon in his mouth, or that he is as modest as an oyster with a cold in his head?

Billie believes the highest destiny of man to be of service; and he himself serves with his right hand, and a diabolical swerve. His views on the political situation are characteristically strong. When we enquired their nature, we understood him to reply, "Comenavadrink," whatever that might imply, and before we could press the matter, he was asking us whether Oxford was co-educational.

As regards the compulsory Greek controversy, our hero's sympathies are said to be all with the pre-Raphaelites.

"And do you intend," we asked, as he broke away for the fourth time, "to study the Oxford dialect before leaving, or shall you simply chance meeting some men who speak English?"

"Yes," he replied after a moment's hesitation, "you see all Rhodes now lead to Oxford," and with this cryptic remark he left us. And so we leave him sharing with the scholarship our heartfelt congratulations for having secured each other.

## "LEGION, FOR WE ARE MANY"

Another Cancer "Cure" Is Added to the Already Long List.

That an epithelioma, which, interpreted, is a skin cancer, can be cured by the application of sunlight through an ordinary magnifying glass is the positive assertion of Dr. J. P. Seelye in the New York Medical Journal.

Dr. Seelye avers that cases of undoubtedly malignant growths which had resisted "every known kind of local treatment, including the X-ray and radium emanations," by cancer specialists for from three to twelve years yielded readily to his sun-burning-glass method, and were apparently cured permanently within six weeks; this amazing result taking place in most cases without the healed surface leaving even a scar.

Briefly, his mode of procedure, which has certainly the merit of cheapness and universality, is as follows: The clear sunlight is focussed, by means of an ordinary magnifying or reading glass such as may be purchased for 50 cents or less, directly upon the sore for ten or fifteen minutes at a sitting. If a scar is present the rays are concentrated on it until the patient complains of the burning, when the focus is quickly lengthened so as to cover with the rays an area of an eighth of an inch or more beyond the scar.

Every few minutes the burning is repeated for a second, though short of the degree of cauterization, and then is applied more mildly. After about ten minutes' treatment the scab darkens, loosens and finally drops off. Then is the time for the powerful application of the rays upon the now raw and bleeding ulcer, and this is done so as almost to cauterize the base, the pain of the burning being dulled by a previous application to the sore a few grades of powdered cocaine.

The above simple, though vigorous, sun-treatment, followed by milder treatments at intervals of from three to seven days, will, according to Dr. Seelye, usually complete the cure, either by killing the irritating germs responsible for the growth or by destroying the low-grade cells whose vitality cannot resist the intense heat or the terrifically rapid etheral vibrations set up by the chemical light rays. At all events the scabs gradually become thinner and more superficial, and the sore bleeds less after their removal, until at last a healthy and permanently normal skin is left with scarcely a faint scar to show the growth's former situation.

Dr. Seelye adds that any ordinary dusting powder, such as talcum, boracic acid or bismuth, may be sprinkled over the scab at any time.

**THINGS MUSICAL**  
MISCHA ELMAN.  
Mischa Elman, the youthful Russian wonder, received the tribute last night of a crowded audience of music lovers at Windsor Hall. The tribute was an almost unbounded one, too, for from the outset this young Russian with the magic touch captivated the immense audience and retained it under the wonderful spell of his art for long over an hour.

He played with a tone as full throated and rich as a cello intonation that was flawless, bowing that was perfection. Elman combined a skill and a musicianship strangely at variance with his years. Elman is master of the thrilling qualities of the violin, and of the song that is or should be in all music. He has an unfailing instinct for the melody, hidden though it may be, and an unfailing passion for it when he once finds it frankly.

One of the most striking features of the recital was the change of expression when the artist played an encore. He seemed to enter their spirit with an abandon which did not characterize the regular numbers. This little trait was especially emphasized in Dvorak's "Humoresque," with which he delighted the audience, and in the charming Beethoven minuet in G major.

It was, indeed, a wonderful performance. The youth himself (he is 21, so the reports say, he more than looked the part), is of average height, portly and well set up. He is none of your long-haired, dark-eyed, youth, but a thoroughly modern dapper young chap dressed in the most approved manner.

His bearing gives one the impression of a nature that is sure of itself, possibly, with leaning toward conceit.

**PROGRAMME.**  
1—Symphonie Espagnole. . . . . Lalo. Allegro non troppo.  
Andante.  
Rondo.  
2—Fantaisie on "Faust" . . . . . Wieniawski.  
3—(a) Ave Maria . . . . . Schubert-Wilhelmj (b) Vogel als Propheet . . . . . Schumann-Auer.  
(c) Melodie . . . . . Gluck-Wilhelmj.  
(d) Schon Rosmarin . . . . . Kreisler.  
4—Zigeunerweisen . . . . . Sarasate.  
Mr. Percy Kahn, the accompanist, supported the violinist very acceptably.

Sandy, on the death of his wife, had inscribed on her tomb: "The light of my life has gone out." Some time afterwards he remarked, and those words seemed somewhat out of place. Meeting his crony at the entrance to the kirk, he said: "Man, Tammas, I've got ta pass that tombstone every time I see in or out the kirk, an' my wife disna like it, but I canna see hoo I can alter the words. What wad ye advise?" Tammas: "Weel, Sandy, it wad be a peety tae alter the words, and forbye, expensive. I'd let it bide as it is an' just add—'But I've struck another match.'"

### CONGRATS.

Mr. and Mrs. George Cooke, Arlington avenue, Westmount, announce the engagement of their daughter, Mary Pearle, to Mr. Charles Allen Fox, B.Sc. (McGill, 10), of Toronto, son of Mr. and Mrs. C. A. Fox, of Coaticook. The marriage will take place Easter week.

### BILLINGTON

Famous Punter is Spending a Few Days in Montreal En Route to British Columbia

Eric Billington, B.Sc., 13, has been in Montreal for the past few days. He is on his way to the west to fill a position with the International Coal and Coke Co., at Crow's Nest, B.C. He had been working with a mining firm in Sydney, C.B., until recently. His visit was happily very opportune, since he was able to take in the Alma Mater Dance last night.

Billington established an enviable reputation for himself as a punter. He played centre half on the victorious football aggregation which Shag Slaughterhouse coached so successfully during the season in 1912. But Eric is perhaps more famous for his exceptionally brilliant exhibition of punting on that memorable occasion two years ago, when McGill and Toronto met in Ottawa. It will be remembered that the odds were against McGill, but the Red and White came back victorious.

### 'Othello' and 'King Lear' in Comparison

Rev. J. B. Frothingham of Goderich Lectures at Trinity College

"Like a grate full of coals, I glow, Col. MacQueen, introducing Rev. J. when a great, full hall I see," began B. Frothingham, of Goderich, to the audience which had come to hear a lecture on "Othello and King Lear Compared," and filled Trinity's Convocation Hall.

Mr. Frothingham, who speaks with a biting intensity of the Scotchman roused, began by warning his hearers against the common misuse of the words "tragedy" and "drama." Shakespeare used neither word in its modern sense. There pathos, misery or disaster are not tragedy, which is really a struggle between the powers of good and evil, with the disfigurement overthrow of good. The character or characters concerned must be above the common level, and built on an heroic scale, not necessarily good nor lovable, but essentially powerful.

True, drama is not description of an event or series of events, but must deal with beings in motion, working on steadily to a definite crisis, those engaged in it depicting the eternal conflict and its use.

Infinitely finer than any of Shakespeare's other plays, thinks Mr. Frothingham, are King Lear and Othello. Better illustrations are they of human nature, more direct in approach, free from underplots and excursions, they grasp the mind with a master hand. Their painful intensity is comparable only to the storms of the tropical zone, in which there are no silences.

Brief summaries of tragedy as shown in the lives of the outstanding figures in the two plays followed, popular conceptions being disregarded. Iago's villainy was tragical because of the many elements in his character which led to the making of an ideal man; Othello's jealousy contained nothing petty, but touched the ultimate and infinite; the love of Cordelia and of Desdemona, though found in women of differing types,

## ENGLISH RUGBY IS LATEST ADDITION TO MCGILL'S LIST OF CHAMPIONSHIPS IN 1913

Red and White Sixteen Headed the Montreal English Rugby League During the Past Season

### WENT THROUGH SEASON WITHOUT A DEFEAT

Replayed Game With Lachine Results in 9-0 Win—Team Made Fine Showing Against Montreal All-Stars — Prospects Are Bright For the Coming Season

Among the minor sports at McGill, interest in which has increased by leaps and bounds in the last two or three years, English Rugby must take first place. Not only in McGill, but all over the country "Rugger" has been steadily gaining in popularity, both with the athletes and the general public. A couple of years ago only a few people knew anything about the game, and still fewer played it. Now leagues are being formed all over the country and the game is in a state of flourishing success.

Last year McGill entered a team in the Montreal English Rugby League. The XV. passed through a most successful season, making a fine showing against the Montreal All-Stars, besides winning the league championship. They passed through the league season without suffering a single defeat. True, the referee awarded a game to Lachine, but on the replay McGill signally defeated the suburban team.

As a result of their good work application was made for a larger "M." The Athletic Committee, at a special meeting on February 3, awarded by a vote of six to one the large plain "M" to all who had taken part in one-half of the championship matches entered by the team. It was also decided that, when the team does not win the league championship, the players shall be entitled to wear the small plain "M."

At the annual meeting of the Club, recently held, the following officers were elected for 1914:—

Hon. President—Prof. Brown.

Secretary—Mr. Tucky.

Vice-Captain—Mr. Murray.

President—Mr. Twinberrow.

Captain—Mr. Busby.

Committees—

Western Representative—Mr. A. Clarke.

United Kingdom—Mr. Levick.

Eastern Representative—.....

After only two practices the McGill Senior XV. entered the field on October 11, playing the English team at Montreal West. The game ended in a draw, 8-8. The Red and White led right up to the final whistle, when a doubtful decision of the referee's allowed English to score a try. Tuohy and Captain Busby both crossed their opponents' line for tries during the match.

The second game, against the Bankers, resulted in a win for the Collegians by a score of 11-0. The game was a fast exhibition of football; the scrim worked well and the three quarters did better than in the first game, their work being much smoother. Clarke, McPhail and Yeo counted tries for McGill.

On Thanksgiving Day, Monday, October 20, after only one day's rest, the English Rugbyists lined up against the Montreal All-Stars. The Campus was a veritable morass, and as a consequence the game was not as fast as it would undoubtedly have been under different circumstances. McGill handled the slippery ball very well, and the forward line played a fast game considering the mud. The half-time score was 5-0, and the game ended with McGill victors by an 8-5 score. Busby and Ross scored both McGill's tries.

The following Saturday the team played its third game in a week, meeting the strong Scottish team on the Campus. The field was heavy and soggy, and the play very close and even, McGill winning out by 6-0. Busby was rather seriously hurt in this game, but he was soon out again doing good work in the next match. The game was featured with brilliant runs by Clarke and Busby, and the Red and White were in much better condition than in any of their previous engagements. Clarke and McPhail scored ties, the latter carrying four men across the line with him. This game practically assured the championship to the college team.

In a second exhibition game against the All-Stars on the Campus, the result was a draw. The McGill backs showed up in great form and as the field was dry the game proved exceedingly fast and interesting. Kenner, of the All-Stars, sustained a slight fracture of the skull, which necessitated his transportation to the Royal Victoria Hospital. At the call of time several men wished to continue the game, but as it was not a league fixture it was decided not to play off the draw.

On the 8th November the McGill aggregation journeyed to Lachine. The game was very rough and the Red and White players were badly used up after the match. The referee was not of international calibre and disallowed four tries by McGill, giving out the final result as 3-0 for Lachine. As Scottish won their scheduled match with the English, the defeat by Lachine gave the championship to the laddies in kilts. However, feeling very much dissatisfied and justly indignant at the way in which they had been treated both by the Lachine players and the referee, McGill entered a protest which was upheld by the Rugby Union, largely owing to the energetic work of President Bell-Irving and Captain Busby. The game was ordered to be replayed on the High School grounds at Notre Dame de Grace on the 22nd of November.

In the replay the McGill XV. completely outclassed Lachine and returned home with the long end of a 9-0 score. The game grew rough towards the end, Lachine being the chief offenders in this respect. McGill's back division worked splendidly, and the forwards had Lachine at their mercy almost all the time. The only weak spot in the game put up by the Red and White Fifteen was their place-kicking, which was poor. DesBrisay scored two tries, while Clarke, who played his usual brilliant game, scored the other one.

A feature of the last season was the way in which Rugby enthusiasts cropped up unexpectedly. Seeing a game in progress a crowd would collect which generally remained to the end, and very often came back to other games. The team had nothing to complain about in the matter of support, and in comparison with intercollegiate football there was quite a large attendance at every match played on the Campus. The policy of the Council in cutting down the expenses of the minor teams did not hinder the English Rugby Club at all; in fact, their gate receipts exceeded the expectations of even the most sanguine. This speaks well for the popularity of the English Code.

Next year promises to hold equally good things in store for the McGill English Rugby Club; those lost by graduation will have plenty of capable and willing men ready to fill their places, and the prospects are bright for another Championship.

Let us hope that the good work will be kept up, and that the English Rugby Championship will soon become as much a fixture at McGill as the Intercollegiate is now.

## NEXT AMERICAN INTERCOLL. MEET

To be Held May 29-30 in Harvard Stadium

### PROSPECTS OF TEAMS

Penn. and Cornell Need One More Victory to Win Cup

With the indoor track season practically ended, interest is being taken in the prospects of the various colleges for the intercollegiate games to be held in the Harvard Stadium, May 29 and 30.

The games this year are unusually important because they may decide the winner of the cup for which there has been competition for nine years. Pennsylvania and Cornell have four victories each, while Harvard has won once. Five victories are required to secure permanent possession of the trophy. Pennsylvania will be exceptionally strong. Of the 24 points secured last year, 19 were scored by men eligible to compete this spring. Cornell is a heavy loser, for she keeps only 1-2 of the 17 1-2 points scored in 1913. Michigan retains 11 out of 19 points; Yale 8 out of 11; and Harvard 13-12 out of 21-12.

In considering the different events, it is easily seen that the 100 and 220 yard dashes may, in a great measure, be accounted for by last year's records. Every one of the five men who won the four places in these events will run this spring. In the quarter-mile, W. A. Barron, Jr., '14, and Jensen, of Michigan, who finished third and fourth respectively, are the only point winners to return. The half-mile finds the winners of first, third and fourth places—Brown, of Yale, '15, Capper, '16, and Marceau, of Dartmouth respectively. Madera, of Pennsylvania, who finished fourth in the mile, is eligible this spring, and is the only point winner in that event to return. McCurdy, of Pennsylvania, and H. St. B. Boyd, '14, will compete again in the two-mile. The two hurdle events will be taken care of by A. L. Jackson, '14, Potter, of Yale, Braun, of

The English Rugby Team, Champions of Last Season

Dartmouth, and Brady of Columbia.

The losses are much heavier in the field events. J. B. Camp, '15, is the only point winner to compete again in the high jump. Camp, together with Fiske, of Princeton, and Kenner, of Cornell, will enter the pole-vault as in 1913. None of the men who placed in the broad jump will enter the 1914 intercollegiate. In the shot-put there will be Whitey of Dartmouth, Beatty of Columbia, and Kohler, of Michigan, who finished last year in the order named. Shattuck, of California, and Kohler, of Michigan, will again throw the hammer.

With the unusual number of point winners returning, the competition in all the events cannot but be of the keenest sort. Some idea of the probable results, however, may be gained from a survey of the various events, and the men returning in them. Cornell seems to be greatly handicapped, while Pennsylvania, Michigan, and Harvard are well fortified.

### MED. DANCE.

The informal dance organized by the class of Med. '15 will be held in the Union on Wednesday, March 11. Any student is privileged to attend, that is, so far as the tickets will permit.

\*\*\*\*\* RAILWAY CLUB. \*\*\*\*\*

Railways in Mexico, will be told about in the meeting of the Railway Club in Room 25, Engineering Building, at 7:15 o'clock to-night. Mr. Homer is from Mexico City, and will speak from first hand knowledge.

The Railway Course will be discussed after the speech-making. At the last meeting the matter was brought up, and left with a committee to carry on further inquiries. The committee will report to-night.

\*\*\*\*\* Trinity captured the Sifton Basketball Cup when they defeated Victoria 39 to 16 at Varsity gym floor. It was a close, hard checking game, but Victoria were erratic in their shooting, and the Trinity five were on the basket. The half-time score was 9 all. The teams:—

Trinity—Forwards, Hatley, Willis; centre, Matheson; defence, Bevan, Beasley. Victoria—Forwards, Maine, Musgrove; centre, Horner; defence, Brown, Horning. Referee—D. A. Twidale.

## NEW ENTRIES FOR WICKSTEED COMP.

Entries Received From All Four Years

### PRACTICE TODAY

Dr. Harvey's Trophy for First Year Men—Keen Competition Promised

The keenest of contention will mark this year's competition for the Wicksteed Trophy, it seems. The entry yesterday of several new men gave zest and added impetus, and all are now practicing regularly. Competitors are entered from all four years, and at the last practice they showed up well.

Dr. Harvey has presented a special trophy for competition among first year men. This does not necessarily mean freshmen, but all those taking their first year gym work, whether they are freshmen, sophomores, juniors or seniors.

The next practice will be held this afternoon at 4:30, and it is expected that various competitors will come up strongly within the next few days.

## ICELANDIC IMPROVEMENTS

A proposition, recently announced, which will ease considerably the meagre traffic facilities of Iceland, is a million-dollar railroad to be started in Iceland at an early date, extending from the capital, Reykjavik, in an easterly direction across the plain of Thingvala, a distance of about 58 miles to the Olufsa Bridge. Ultimately it is proposed to extend this line to Thorshavn, where the line will branch off in two directions, one going to the geysers and the other to Cerbak.

## DEPARTMENT OF MINES GEOLOGICAL SURVEY. PUBLICATIONS

The Geological Survey has published maps and reports dealing with a large part of Canada, with many local areas and special subjects.

A catalogue of publications will be sent free to any applicant.

Most of the older reports are out of print, but they may usually be found in public libraries, libraries of the Canadian Mining Institute, etc.

### REPORTS RECENTLY ISSUED:

1089. Map 9A. Explored Routes on parts of the Albany, Severn and Winick River. Scale 8 miles to 1 inch.

NOTE—Maps published within the last two years may be had, printed on linen, for field use. A charge of ten cents is made for maps on linen.

Communications should be addressed to THE DIRECTOR, GEOLOGICAL SURVEY, OTTAWA.

## "M's" GIVEN BY ATHLETIC ASS.

English Rugby Players Rewarded

### CLASS NUMERALS

At the last meeting of the Athletic Association, "M's" were granted to members of the English Rugby, hockey, water polo, and swimming teams. First grade plain "M's" were awarded as follows:—

English Rugby—Bell-Irving, Twinberrow, Ripley, Murray, Heate, DesBrisay, Yeo, Hunter, McPhail, Busby, and Ross.  
Hockey—Mann, Hughes, Rankin, Davidson, Byles, and Masson.  
Swimming—George Hodgson, George Draper, F. McLean, Lee Smith, Bill Abbott, John Kerry, K. Rosborough, Water Polo—Patterson, Clapp, Redmond, Lee Smith, Penningley, Hadley.

Second grade small "M's" were granted to members of the intermediate water polo team. Those to receive them are:—

Walters, Smith, Gilchrist, Lighthall, Clarke, and Rosborough.  
Pierce, '17, Shannon, '17, Levick, '17, Brown, '18, and Tuohy, '18, are entitled to their first grade plain "M" for English Rugby, but being first year men they are awarded their class numerals.

## DAILY MATCHES OXFORD FEATURE

No sporting event in the British Isles is of more importance than the Inter-Varsity boat race, and certainly no other sporting event in the world is witnessed by so many hundreds of thousands of spectators, as the banks of the Thames are crowded on both sides for the full 12 miles of the course from Putney to Mortlake. Boat race night in London resembles New Year's night or an election night in New York City. The coaching of the Oxford and Cambridge crews is done solely by old Varsity rowing men, blues in their time, who volunteer their services.

While association football is the football for the masses in England, rugby football is more favored at the Universities, and the annual inter-University rugby match, held at Queen's Club, London, about the middle of December, is always a big event in sporting circles.

The Inter-Varsity "Sports," or in American parlance, the Oxford-Cambridge track meet, usually occur a week before the boat race, and are held at Queen's Club, London. The other big inter-University sporting event of the year is the annual cricket match at Lords, held in or about the first week of July.

But most important in the long run are the inter-college games, and matches taking place every afternoon during the university year. And after all, the chief virtue of the Oxford system is that it is for the many, not the few. No matter whether a man has a chance of making his Varsity team or not, he will go out and play on his college team, and there are so many of these that everyone has a chance. Oxford stands for intra-collegiate in addition to inter-collegiate sport. She stands for participation in sport and not for "bleacheritis." While in this country we have a few stars, and hold the majority of records, there are relatively many more athletes of average ability in the English university than in an American one. The recent newspaper clamor about the decadence of the English sport is unfortunate because not strictly true. Sports are primarily for health and recreation.

We have not in America the Oxford system of colleges, but through the various classes, and through the various departments, we can develop a parallel regime. In conclusion, I do not wish to be understood as opposed to intercollegiate contests. Far from it. But these should be only incidental to, not the *raison d'être* of, a wide and wholesome system.—L. C. Hull, Jr., Rhodes scholar from Michigan.

Do Not Forget Your Barbers

## DORÉ BROS.

331 Bleury Street Near St. Catherine

Corner Peel and St. Catherine Under Union Bank.

## NEWS FROM KINGSTON

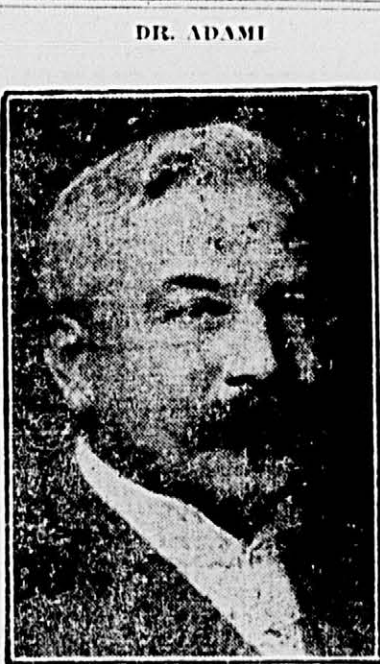

R. M. C. Intermediate Champs—Three Titles in Kingston

Queen's senior team, champions of the Intercollegiate will leave on Friday, at noon for Renfrew, where an exhibition game will be played against the team from that town. A return game will take place in Kingston next week some time, and if Queen's win out, it is said that they may change their mind about not competing for the Allan Cup. The team will take the ice in Renfrew as in former games, no change being made in the line-up. It is expected that a large crowd of students will take in the trip to Renfrew.

Next year in the O. H. A., it is hardly likely that there will be any intercollegiate teams entered—or allowed to enter, would be more to the point. Jas. T. Sutherland, manager of the Frontenacs, stated at the banquet at the Randolph Hotel, Kingston, last Thursday night, that a motion to the effect that intercollegiate teams be barred from taking part in O. H. A. games would be brought up at the annual meeting of the O. H. A., and would in all probability be passed. This would bar a number of teams from the Association.

The Collegiate and Varsity III. are playing off in Toronto in the first of the home and home games for the Junior Intercollegiate championship. The match began at three o'clock. The Kingston team will line up with Charlie Stewart in goal; Ferguson and Singleton on the defence; Harry Cook and Jim Stewart at centre, and Toiland Bros. on the wings.

DIR. ADAMI

Who, The Herald says, has been proposed as candidate for Mayorality of Montreal

Twenty-one Meal Tickets, 34.50.

Charles Green 117 METCALFE

The Cadets took the game from Varsity on Thursday, and if K. C. I. can hold Varsity III. down to a close score, so that they will be able to win out on the round, with Queen's now holding the senior championship, all three intercollegiate trophies will rest in Kingston this year—a very creditable record (if it comes to pass).

The Frontenacs have written to Syracuse with the object in view of arranging a game between the seniors and Syracuse in Syracuse. No answer has yet been received, and it is hardly probable that the Frontenacs will play there. They will take a trip away before the season is over, however. Both junior and senior teams will practice at the rink after the game to-night.

**MEN AND RAILWAYS**

In the administration of great engineering enterprise stability is the criterion of efficiency, and stability is measured fairly well by the stamp of man the organization itself develops for its own prospective requirements. When Lord Claud Hamilton spoke recently of the dearth of first-class men coming to the front capable of fulfilling the duties of general manager of a railway he condemned not so much the staff of the engineering and other departments—to which he referred—as the chairman and board who had failed to carry out their cardinal duty of training the men they need. He attributed the extinction of the British general manager species to the present system, which divides the various branches of the railway organization into watertight compartments, and to the consequent lack of opportunity for a young man to see the multifarious requirements of a railway company steadily, and to see them whole. It is perfectly true that progress is delayed by the intervention of watertight compartments, but the retardation resulting from lack of organization within the compartments is often still more serious than the mere pressure of the bulkheads. In and about the works and offices of the railway companies of this country there are plenty of capable young engineers and others fully qualified, so far as their college training is concerned, to be developed into captains and generals in the field of railway working, construction, and maintenance. Their chances of promotion, however, are too frequently impeded by men whose technical knowledge is of the flimsiest, and who are consequently unable to grasp even the meaning of a specification.

The first step towards reform must therefore be insistence upon a fair standard of technical knowledge for those in responsible positions; and the second must be the recognition that, however high are the attainments of a novice from a technical school or college, such attainments are the mere base upon which the railway company itself, through its chairman and board of directors, must fashion the man it wants.

**McGill Twenty-Four Months Ago**  
FROM THE MCGILL DAILY, FRIDAY, MARCH 6, 1912.

Twenty-four months ago, Sat., March 7, 1912. The Medical Society election involved an innovation in the manner of its conduct. At a special nomination meeting the various candidates and their supporters will be given an opportunity to advance their respective claims. Each nominee was given three minutes to accept nomination. The Historical Society held their final meeting of the year. After the minutes had been read, the treasurer gave his annual report. Mr. Brooks read an interesting paper on Triple Alliance.

The Arts Undergraduate Society elected H. Morgan as president of the Arts Undergrad. Society victor over F. Common by a vote of 99 to 80.

**GASTRONOMIC CLOCK.**

An ingenious Frenchman once devised a clock that would tell him the time in the dark, not through his eyes, but through his mouth. Beside his bed he placed a large flat clock dial, on which every hour was marked by a small cavity. In each of these he placed a different spice, the figure 12, for instance, held quinine and the figure 6 cloves.

To find the time he felt for the short hand with his fingers, and dipped them into the cavity to which it pointed, then tasted his fingers. This gave him the hour. To get the minutes he felt for the long hand and tasted the spice to which it pointed. If he tasted pepper and then nutmeg, for instance, he knew it was half past 2.

"Why don't you buy something at my stall?" demanded a girl at a charity bazaar.

"Because I only buy from the homely-looking girls," said the man. "They find it harder to make sales."

Passenger—"I thought you weren't allowed to take tips, porter?"

Porter—"Oh, no, sir; we're not allowed to take them, and we never do take them, but of course we receive them occasionally."

He—"The waves were mountains high; all hope was lost, and—"

Script—"How is it you are alive to tell the tale?"

He—"As I reeled and fell to the deck, my head swam."

Riley Hern says:

"With half-a-dozen stores on St. James Street vacant and the 'To Let' in strong evidence all over the shopping district, there must be some moral to draw. Rents are away down, of course.

"The survival of the fittest is proven in the pinch. The test time comes.

"That Semi-ready Tailoring will prevail has always been my claim; and I repeat it now that one must give heed to the progressive ideas and the present ideals."

**GRADUATES NIGHT AT LAST**  
**MEETING OF HISTORICAL CLUB**

Professor Harvey Speaks of the Life of a Rhodes Scholar at Oxford, and Arthur Mathewson Describes His Adventures as a Student in Paris

The Graduates' meeting of the Historical Club took place as announced on Thursday evening. The papers for the evening were by Mr. Arthur Mathewson and Professor Harvey.

Mr. Mathewson treated in a most interesting manner of his "Adventures as a Student in Paris." There are few Canadian students in Paris, and of these Mr. Mathewson was the only one attending the Diplomatic School. Life in a student in Paris may be divided into three parts. The System of Instruction, the Social Life of the Student, and the Private Life of the Student.

The system employed in the Diplomatic School is far superior, said Mr. Mathewson, to that employed at McGill and other North American Colleges. Lectures are delivered in somewhat the same manner, but there is also a complementary system of "Studies in Application," as they are called. These are semi-formal discussions between professor and students. The professor asks the student question which, if they cannot answer, he does so himself. But one is marked for the intelligence and knowledge which you display in answering.

"But," continued Mr. Mathewson, "another side of student life requires attention. This is the social relationship existing between students. In a French College there is practically no 'Esprit de Corps.' Each man works and lives for himself. The cause of this may, perhaps, be found in the national characteristic of the Frenchman, individualism. Your neighbor in class neither knows nor cares who you are, or anything about you, till you are introduced, perhaps, outside the classroom, and you get to know the Frenchman well, there is no more hospitable man in the world.

"But the private life of the foreign student living in Paris is not so full of joys. His rooms in some 'pension' are usually more or less cheerless and cold, and he wakes up to look out upon an unsympathetic gray sky. The only redeeming feature of this waking being that it does not take place till about 10 o'clock. Breakfast consists of a large cup of 'Café au Lait' and rolls. These are generally taken in bed, and were all that the student had till he sat down to a most excellent lunch at about half-past twelve.

In closing, Mr. Mathewson besought his audience to not to think that his memories of Paris were gloomy. "Indeed," said he, "often fond memories of Paris flash into my mind, and these lines run through my head:—

"Combien j'ai douce souvenance,  
Du jour, lieu, ma naissance,  
Ma sœur, qu'il est d'instants beaux,  
Les jours de France."

Professor Harvey drew a very vivid and complete picture of the life of a Rhodes scholar in Oxford. He told of the life of Cecil Rhodes, the giver of the scholarships.

Cecil Rhodes was the ninth son of an English vicar. When he was born he was sent out to his father's brother on a sheep farm in South Africa. During this time his great wish was to get a university education—at Oxford. He joined in the rush to the end of the last year, and embraced the whole of the work, taken up during the students' residence.

In closing his remarks, Prof. Harvey praised very highly the public-spiritedness of Cecil Rhodes in instituting the scholarships, and spoke very strongly in favour of any student who had the chance, to seize this opportunity of studying in one of the greatest universities of the world.

Following Prof. Harvey, the Rev. Mr. Jack Richardson spoke a few words of appreciation of the speeches of the evening.

Dr. Fryer closed the address by a few well-timed remarks. He was inclined to take issue with Mr. Mathewson over his statement that the French method of professing was superior to ours, stating that a student who had gone through a course of the Canadian style of lecturing would be prepared to receive benefit than would a French student.

After the speeches refreshments were served, and a discussion took place on the policy and programme of the club for next year.

The situation of the club has changed somewhat owing to the formation of the Political Economy and Architectural Clubs.

A committee composed of Prof. Harvey, Mr. Richardson, and Mr. D'Oisy will look into the matter and report at the next meeting.

**THINGS THEATRICAL**

His Majesty's.

A rare musical treat is in store for Montrealeers next week, when the Quinlan Grand Opera Company will begin the performances of Wagner's great masterpiece, "The Ring of the Nibelungs." Three of the operas of this cycle of four great works will be given at His Majesty's Theatre. These are "The Rheingold," the prelude to "The Ring," "Valkyrie," and "Siegfried," the first and second parts respectively. The finale will be sung during the third week of the company's season. "Rheingold" and "Siegfried" have never before been presented in Canada. "Valkyrie" was presented here by the Savage Opera Company some eight years ago. The staging of these operas is of a most elaborate nature, and the productions which Mr. Quinlan has given in England—the same as Montreal is to see down to the smallest detail—have met with very high praise from some of the big English musical critics.

The Quinlan company has come in for some very eulogistic comment from Montreal music lovers for their work here during their opening weeks. It is generally agreed that never before has this city heard such a fine orchestra, and that the ensemble of the company surpasses anything which has been attempted in the city in the past. The booking for next week shows promise of being very heavy.

The performance of "Rheingold" on Monday evening will begin at 8.15 o'clock. This opera serves as a prelude to the three other works of the "Ring." In it is shown the theft of the Rhinegold from the three Rhine maidens by the dwarfs, or Nibelungs, which is converted into a magic ring, which the god Wotan secures, but which finally becomes the property of the giants Fasolt and Fafner as ransom for the goddess Freia. The end for this opera includes the best Wagnerian singers in the company's ranks.

Robert Parker will sing Wotan, and will sustain in this role the rugged and the "Ring" performances. Others in the cast will be: Donner, Graham Marr, Lore, Spencer Thomas, Froh, Ernest Clerc, Alberich, W. J. Samuelli, H. J. Russell, Siegmund, W. J. Samuelli, Fricka, Edna Thornton, Glady's Annum, Voglinde, Alice Prowss, Wellgunde, Mita Edwards, Flosshilde, Mabel Dennis, Edna, Winifred Holme. The conductor will be Herold E. Eckhold.

Verdi's "Aida," which has been sung here frequently by the Montreal Opera Company will be given on Tuesday evening. It is said that the staging and general effect of this production is exceptionally fine. The Quinlan chorus is a feature of the organization, and in "Aida" these minor but none the less extremely important singers have plenty of opportunity of demonstrating their talents.

The cast will be as follows: Aida, Jeanne Broia; Amneris, Edna Thornton; Radames, Maurice D'Oisy; Amonasro, W. J. Samuelli; The King, Charles Macgrath; The High Priest, William Anderson; Conductor, Dr. Tullion, Voghera.

The first part of the Ring, "Valkyrie," will be presented on Wednesday evening. The Valkyrie are the shield bearers of the gods, who, according to German mythology, led the heroes of the world into Walhalla, the home of the gods. The opera tells how Brunhilde, Wotan's favorite Valkyrie, disobeyed his orders, and as a punishment is caused to fall into a magic sleep by the god, who decrees that she shall belong to him who shall first awaken her with a kiss. Wotan then causes flames to surround the peak of the mountain where she is sleeping so that no one but a fearless knight may awaken her to life. Wotan will again be sung by Robert Parker, while Miss Perceval Allen will be the Brunhilde. This is the role in which Miss Allen made a name for herself in several of the Royal Opera houses of Europe. Others in the cast will be: Miss Gladys Annum as Sieglinde, Madam Edna Thornton the flames, and awakens her. "Siegfried" and Carl von Schenck as Hunding. Her Eckhold will conduct.

Puccini's "Madame Butterfly" will be the attraction on Thursday evening. Madame Jeanne Broia has scored a great success in the role of Butterfly. She will sing in the Montreal production. She will be supported by Mabel Dennis, who charmed Montrealeers by her interpretation of the role of Magdalena in "The Master-singers." The Quinlan's opening performance here. Miss Dennis will, of course, sing Susuki, Maurice D'Oisy will sing Pinkerton, the "hero" of the story, while the good-natured American consul, Sharpless, will be sung by W. J. Samuelli. The minor roles will be in the hands of Gladys Annum, Sydney Russell and Arthur Wynn.

Friday night will be a gala night. "Siegfried," the second part of the "Ring," will be presented for the first time in this country. The story tells how Siegfried, a young descendant of the gods, who has been brought up by the Nibelungs, overcomes the giants and obtains possession of the Ring, then goes to the flaming mountain top, where Brunhilde, in a feat of magic sleep, fights her way through the flames, and awakens her. "Siegfried" is one of Wagner's longer works, and the performance will commence at 7.30 o'clock sharp. Miss Per-

**MISS EDNA THORNTON**

Verdi's "Aida," which has been sung here frequently by the Montreal Opera Company will be given on Tuesday evening. It is said that the staging and general effect of this production is exceptionally fine. The Quinlan chorus is a feature of the organization, and in "Aida" these minor but none the less extremely important singers have plenty of opportunity of demonstrating their talents.

**MISS FELICE LYNE**

The patrons of this popular theatre will be delighted to learn that Mr. Ralph Smalley, cellist, has been engaged for another week. Mr. Smalley, until recently, was with the Boston Symphony Orchestra. His playing with the orchestra gained him a high reputation as a soloist. The last two years, however, like numbers of other artists, has accepted "the call of vaudeville," and has since played all the leading theatres of this continent with marked success.

Miss Gertrude Ashe, soprano, will also remain for another week. Miss Ashe is a very capable soloist, and renders her selections in a masterful manner.

The photoplay features for next week are the product of the leading producers of the day, and should prove not only interesting and amusing, but instructive as well.

On Monday and Tuesday, "The Greatest Gift." This feature picture tells the story of a Doctor's weakness for money causing his one great mistake—how self-immolation, the caprice of Dame Fortune, disentangled the signs of destiny. A charming, highly entertaining subject.

"The Portrait." True to life. He paints a sweet old lady's portrait, which takes first prize, and saves her unfortunate boy from being a failure and an outcast. The young artist helps the boy succeed and makes the old lady exceedingly happy by his words of encouragement and hope. "The Portrait" to be exhibited at the Imperial Wednesday and Thursday next week, is a picture within a picture, and one of the sweetest stories ever recited. It is a masterpiece of art.

"Grass County Goes Dry" is the title of a two-part comedy that will be shown on Friday and Saturday. A splendid story of every-day life, showing the comical side of a serious situation. The interest is sustained

**QUINLAN OPERA COMPANY**

Verdi's "Aida," which has been sung here frequently by the Montreal Opera Company will be given on Tuesday evening. It is said that the staging and general effect of this production is exceptionally fine. NEXT MONDAY

Pupils of Catholic High Present  
New Opera—"Cruise of Delectus" is Title of Work Chosen

Next Monday evening, at 8.15, in the Monument National, the students of the Catholic High School will present "The Cruise of the Delectus." Their excellent work in their previous attempts, "Columbus," and "William Tell," augur well for the coming opera, and the fact that Prof. P. J. Shea has charge of the orchestra and chorus, is a sufficient guarantee for the quality of the work.

There will also be a matinee performance this afternoon for school children.

All graduates of the Catholic High in McGill should make it a point to be present on Monday night.
